

Property Tours

Many of our clients have never been to Albania and want to visit to get a feel for the country, the coastline, cities, its topography, and the various areas for potential investment. We welcome you and highly recommend that you come to the country and take one of our "Albania Estate Property Tours" that have garnered many rave reviews from our clients.

We are the most experienced in rentals and management in the Albanian market and now have 2 offices in Albania, Tirana and Saranda with sub offices in Vlora and Dhermi.

The property tour is a "rolling mini-seminar" through most key areas of the country - from Tirana, Durres and then down south to Vlora, Dhermi, Palase, Himara and Saranda. Our professional sales agents have deep knowledge about property issues, property management, maintenance expenses, and other issues specifically relevant to owning investment property. We believe in educating our clients, not applying high pressure sales tactics.

We look at apartments in a variety of price ranges from 50,000 Euros to 150,000 Euros (or more depending on a specific client's needs) as well as lands of different sizes and finally commercial properties such as hotels. Property tours are capped at no more than six investors and / or investment partners, so there are never more than ten people on a tour. Private tours for previous clients, their immediate referrals, or volume buyers are available upon request.

We ask that you only engage us if you're serious about Albania as an investment market. In return, we'll respect your busy schedule and reward you with an excellent tour and selection of investment properties.

We have an agreement in Saranda with a company that will extend the tour to other destinations if you wish. They are located right next to our office in Saranda

Please contact us to reserve your place or for more info.
